

## **How to care for your stainless steel jewelry**

---

**In order for your stainless steel jewelry to last a long time, you must take certain precautions to preserve its color:**

- ✓ **Clean with a dry cloth (do not clean with detergents).**
- ✓ **Do not apply cream or perfume on the jewelry.**
- ✓ **If you want to remove any stains, you can do so with a little warm water to remove them.**
- ✓ **If it has any scratches, it is better to have it polished by a professional.**
- ✓ **It is advisable to store it in a box instead of a closed bag.**

**These are some tips for the care of stainless steel jewelry, but remember that you can take it to a professional for proper maintenance.**
